---

In November 2023, Guorun Energy Storage signed a cooperation agreement with the Wenzhou Municipal Government, and the annual production of 1GWh all-vanadium liquid flow energy storage battery ...

In June, Yiwei Lithium Energy announced that it had signed a 15GWh strategic cooperation with Powin, a leading system integrator in the United States. Previously, it had signed 1GWh and 10GWh lithium ...

By replacing these liquid components with solid electrolytes, Huawei aims to significantly enhance the lifespan, safety, and performance of batteries, particularly for applications like...

Aug 4, 2025 · The company aims to solve the industry pain point of high initial installation costs for liquid flow batteries by developing low-cost and high-performance revolutionary key materials, ...

The 1MW/4MWh all-vanadium liquid flow battery energy storage project built by Dehai Aike for Xizi Clean Energy has enabled Xizi Clean Energy"s demonstration factory to achieve non-stop ...

North America"s Avalon Battery and British company redT energy merged to form "Invinity Energy Systems"--a leading global vanadium flow battery company that specializes in utility-grade energy storage for commercial ...

Zhu from Huawei Digital Energy also gave a detailed introduction to the development stage and characteristics of Huawei Digital Energy"s microgrid service system, as well as Huawei"s project experience ...

Zhu from Huawei Digital Energy also gave a detailed introduction to the development stage and characteristics of Huawei Digital Energy"s microgrid service system, as well as Huawei"s ...

By pursuing solid-state battery development, Huawei joins a growing list of global automakers and tech

companies such as BMW, Mercedes-Benz, Volkswagen, and BYD, all racing to unlock safer,...

Huawei"s lithium battery solutions enable intelligent energy storage and peak shifting, upgrading backup power systems to improve flexibility and reliability.

Litricity (Germany): a deep-tech startup developing a highly scalable liquid, water-based battery that stores electricity in an aqueous solution for long-duration, grid-stabilizing applications.
