

How much does a 19-inch charging station cabinet cost in Vietnam

Overview

DC ultra-fast charging stations have costs ranging from 500 million to 1.5 billion VND depending on capacity and features. The cost of investing in an electric vehicle charging station depends on the type of station, scale, location, and other related costs such as construction, operation, premises, and permits. Based on the number of charging ports relative to land area and population. These cabinets are equipped with a comprehensive range of advanced safety features to ensure the secure storage and charging of lithium-ion batteries. Fire-resistant materials provide an additional layer of protection, minimizing the risk of accidents or damage.
