This pump is a very good choice for people who need to use it for agricultural irrigation, because of its large flow rate, it can meet the demand for water in irrigation and improve irrigation efficiency

Efficient Irrigation: With a max flow rate of 35m³/h and max head of 8m, this pump is suitable for irrigation systems, providing a reliable water supply for your garden or agricultural needs.

Water proof and leak proof based on double water seal. Intelligent water shortage protection: the pump stops working automatically when there is no water in the well, and automatically starts working 30 ...

·This solar well pump is built with rust-resistant 304 stainless steel, the pump is highly resistant to corrosion. ·The high-precision rotor and NSK bearing can reduce friction for long-time use.

The Solar Water Pump Controller Drives the High Efficient Brush-less Dc Pump Motor, Utilizing the Latest Mppt Technology to Ensure Maximum Flow Is Delivered Under All Light Conditions.

Alloy mechanical seal, longer working life and high reliability. High lift, large flow, small size, easy to carry. Suitable for using in ships, fishing boats, fish ponds, agricultural irrigation and etc.

The 48V/72V DC deep well solar water pump offers a power of 400W/800W, providing an efficient pumping experience. This energy-efficient solar variable frequency pump connects directly to solar ...

Product Description 3Inch 800W Dc Brushless Solar Aluminum Shell Submersible Pump For Agricultural Irrigation

With annual output exceeding 500000 pcs of water pumps which of over 300 specifications and more than 60 countries. Most of pumps applications are used in domestic, agricultural and industrial fields.

With a power of 1500w and voltage of 110v, this pump can achieve a maximum water flow of 3.8 m³/h

3 inch 800w solar DC water pump

and lift head of 180 m. Its 3-inch pump body is perfect for household water supply, animal husbandry, ...
