With an expected annual production of more than 185,000 MWh, this facility will significantly contribute to the generation of energy from renewable sources, supporting Spain's broader decarbonization goals.

Located in the southern municipality of Salinas, the project has been developed by Ciro Energy Group and is part of a wider solar PV portfolio being developed in Puerto Rico.

We expect the combined share of generation from solar power and wind power to rise from about 18% in 2025 to about 21% in 2027. In our STEO forecast, utility-scale solar is the fastest ...

Plenitude has begun construction of a 90 MW renewable energy solar plant in Fortuna, a region of Murcia. The facility will cover 120 hectares and increase renewable energy production in ...

Plenitude has started the construction of a new 90 MW solar plant in the municipality of Fortuna, in the Region of Murcia, in Spain. The groundbreaking ceremony, held today, was attended ...
