What is a 4fold foldable container?

The 4FOLD Foldable Container has been used on all modalities with different shipping lines all over the world. The European Union included the 4FOLD foldable container in the Horizon 2020 research and innovation program.

What is Holland container innovations?

Holland Container Innovations is committed to bringing down the cost, and harmful emission, originating from empty container movements.

What is a foldable container?

Such foldable containers are compatible with the normal ISO-approved TEU or FEU and are strong enough to be placed anywhere on a shipboard stack. Any number of containers from 2 to 5, can be folded and stacked in such a way to form a regular container size for transport or storage.

Which companies are coming out with foldable containers?

Staxxon is another company that is coming out with foldable containers. This year, the US-based company operating out of New Jersey began trials of their foldable containers collaborating with freight vessels, road transport operators, and railcar companies.

We design foldable intermodal shipping containers that exceed ISO and CSC standards, and the systems needed to fold them standing upright in bundles, safely and quickly.

Enter The Foldable Container How Does A Foldable Container Work? The Downside of Foldable Containers While the containers from HCI are of the collapsible type, those from Staxxon fold vertically, in the company's words "accordion style". To fold an HCI container, an MHE would lift the roof of the container, and then the sides are folded inward. The roof is then lowered gently to rest on the folded sides creating a kind of horizontal flat-pack. Fou...
