What is happening in Mozambique Telecom?

Mozambique Telecom progresses with the second phase of its network modernisation program. Raxio Group completes its Tier-III carrier-neutral colocation data centre in Maputo. Telecom regulator implements revised SIM card and mobile device registration scheme to tackle fraud. Starlink launches satellite broadband services in Mozambique.

Why is Mozambique launching a telecom reform?

Mozambique was one of the first countries in the region to embark upon telecom reform and to open the sector to competition. The mobile segment in particular has shown strong growth since the launch of services by Vodacom Mozambique to compete against mCel, the then mobile subsidiary of the national telco Telecommunicações de Moçambique.

Which mobile phone company operates in Mozambique?

Although Vodacom is the dominant mobile phone operator in Mozambique with almost 50% market share, Tmcel is the only entity that continues to offer integrated fixed line service. According to World Bank, Mozambique registered approximately 16 million mobile subscriptions in 2020 which corresponds to more than half of the population.

Does Mozambique have a data center?

Amazon Web Services (AWS), Heroku, and Microsoft Azure are among the many international companies that offer cloud services to Mozambique, but do not operate their own in-country data centers. However, U.S. investment firm Roha, which aims to build and operate a world-class tier 3 data center in partnership with high-tech group Raxio.
