Armenia and the UAE have agreed to begin the construction of the industrial-scale photovoltaic solar power plant "Ayg-1" in Armenia in early 2026.

There are about 60 licensed solar power plants in Armenia with a total capacity of 204.8 MW, and more than 11,000 autonomous producers have installed solar panels with a combined ...

Armenia's geography provides an ideal setting for solar power generation, with over 2,500 hours of sunshine annually. Recognizing this potential, the government introduced policies and ...

Construction of Armenia's Largest Solar Power Plant in Full Swing Armenia is poised for a renewable energy revolution, with construction on its largest solar power plant, Masrik-1, now well ...

According to the public reports of PSRC, as of July 2025 there are 84 commercial solar PV plants with total 369 MW installed capacity operating in Armenia, of which 62 plants (260.4 MW) ...

Solar energy production in Armenia has reached a new level. Armenia continues to actively expand its solar energy sector, aiming to increase the share of renewable energy production ...

Consumers are allowed to install solar panels with total power of up to 150 kW, and may sell any surplus to electricity distribution company Electric Networks of Armenia (ENA).

In Gegharkunik Province, Shtigen has constructed Armenia's largest solar power plant as of 2024. The construction of "Masrik-1" lasted 11 months, continuing uninterrupted even in winter, as ...

OverviewPhotovoltaicsPotentialThermal solarSee alsoExternal linksAs of April 2019 ten 1 MW strong solar stations are installed. Solar and wind stations account for less than 1% of total installed electricity generation capacities. In April 2019 it was announced that German company Das Enteria Solarkraftwerk will build a 2

Armenia power generation panels solar panels

MW strong solar station near Shorzha at lake Sevan by end of 2020. Currently 9 solar PV plants (total installed capacity - about 7,02 MW) have been put ...

The total indicates around 615 MW of solar were added in 2025, when considering the International Renewable Energy Agency (IRENA) reported Armenia's cumulative solar capacity at ...

In recent years, the field of solar energy in Armenia has developed rapidly, solar power plants with a total installed capacity of 1,045 megawatts are already connected to Armenia's power ...
