Kenya Electricity Generating Company (KenGen) is powering forward with its green energy ambitions, officially launching the prequalification process for a 42.5 MWac solar PV plant and a 3 MW / 4.5 ...

Extreme Weather Drives Demand for Resilient Energy Storage Frequent weather events and grid disruptions are fueling energy security concerns, making BESS a reliable backup for end users.

The project, considered the world's largest solar-storage project, will install 3.5GW of solar photovoltaic capacity and a 4.5GWh battery storage system. The project has commenced in November 2024. [pdf]

The battery energy storage market continues its rapid growth, reshaping power systems worldwide. After a historic 2025, when global BESS capacity surpassed 250 GW and overtook ...

Volta's annual report now stretches to 750 pages, diving deep into many technical areas, along with the usual focus on battery energy storage systems (BESS).

Battery energy storage system Tehachapi Energy Storage Project, Tehachapi, California. A battery energy storage system (BESS) or battery storage power station is a type of energy storage ...

Designed to integrate 13 GW of renewable energy generation capacity along with 12 GWh of battery energy storage, the project will form a critical link in India's transition to clean energy.

Israeli renewable energy company Nofar Energy Ltd will develop over 1 gigawatt-hour (GWh) of energy storage capacity across 60 locations in Israel. These locations belong to the retail chain Machsanei ...

From early installations to advanced storage systems: discover how Enel is driving innovation in the BESS sector and sustainable energy storage.
