The objective of the RESTORE investment, financed with EUR 603 million from the Recovery and Resilience Facility, is to enable a significant increase the share of renewable energy (wind and solar) in the energy mix ...

The initiative aims to enhance grid stability, reduce curtailment of renewable energy, and support Bulgaria's transition to a low-carbon energy system. As of early 2025, the programme has received ...

Government initiatives, European Union funding, and private sector investments have driven advancements in battery storage, pumped hydro, and other innovative technologies. These efforts aim to ...

The energy storage project is expected to stabilize Bulgaria's energy system and enhance the flexibility of its power grid. Storage systems play a crucial role in integrating renewable energy sources, such ...

The selected projects--funded under the EU-supported RESTORE program--will receive up to 50% of construction and commissioning costs, aiming to reinforce grid stability as Bulgaria scales up ...

Energy storage in Bulgaria is expanding rapidly as the government awards nearly 10 GWh of capacity to 82 projects, boosting renewable energy reliability and grid stability.

This significant capacity will strengthen Bulgaria's ability to store and manage energy from renewable sources, enhancing the reliability of its energy grid. The Ministry of Energy set a deadline of ...

storage is hindering Bulgaria in the development of an energy storage market. Furthermore, Bulgaria's energy legislation and grid codes have been historically written with thermal plants in mind, especially with regards ...

With EVN Bulgaria and CyberGrid, we demonstrate how smart battery management transforms flexibility into market power, delivering real revenue, grid stability, and long-term sustainability.

The RESTORE programme aims to help Bulgaria increase its share of wind and solar in the electricity mix

Bulgaria energy storage for grid stability

while maintaining grid stability and security. Storage projects will be connected to either the ...
