From stabilizing renewable energy grids to empowering heavy industries, Cairo's industrial energy storage products offer robust solutions for modern challenges.

We observed a significant increase in wind power during the period (2000/2001-2020/2021), as it increased from 137 GWh in the year 2000/2001 to 5257 GWh in the year ...

CAIRO - 3 December 2023: Norway's Scatec and the Egyptian Electricity Holding Company (EEHC) have signed a cooperation agreement for the first a solar and battery storage project in Egypt.

Recent reports in local media have raised speculation that the government may be considering utility-scale batteries as a potential solution for storing excess power and smoothing the integration of wind ...

Earlier this year, state-owned utility Egyptian Electricity Holding Co. held an expressions-of-interest tender for the design, construction and operation of a 8.2 MW solar plant and 2 MW/4MWh battery ...

EK SOLAR offers turnkey solutions from feasibility studies to commissioning. With 14 years of MENA market experience, we've achieved 93% bid success rate since 2020.

Huijue Group's Home Energy Storage Solution integrates advanced lithium battery technology with solar systems. Ranging from 5kWh to 20kWh, it caters to households of varying sizes.

Solar & Storage Live Egypt is Egypt's largest renewable energy exhibition that celebrates the technologies at the forefront of the transition to a greener, smarter, more decentralised energy system.

This initiative is part of a broader \$3 billion investment package that includes solar, wind, and battery energy storage systems, with operations expected to begin by summer 2025.

Cairo's energy storage sector isn't just growing - it's rewriting the rulebook for sustainable urban

Cairo EK SOLAR wind power storage

development. With Egypt aiming to achieve 42% renewable energy by 2035 [1], ...
