How much does office maintenance cost?

Most property owners should budget 2-5% of their building's replacement asset value annually for maintenance, which typically translates to \$1.60-\$2.80 per square foot for office buildings. Note: These are average industry costs based on research data, not specific pricing for Boston Landscape Co.

How much does network maintenance cost?

Several network configuration and management tools provide consistent maps of the network (see "Take a Four-Step Network Configuration and Change Management Approach to Stem Disasters"). For routers and switches, one year of maintenance typically accounts for 5% to 10% of the initial net purchase price.

How much does it cost to maintain a commercial building?

Basic maintenance for standard commercial buildings typically falls between \$1.00-\$3.00 per square foot annually. This covers your essential repairs, basic system upkeep, and minimal preventive care - think of it as keeping the lights on and the heat working.

How much should you spend on building maintenance?

This method suggests your annual maintenance spending should stay within 2-5% of what it would cost to replace all your building's systems and components today. This approach makes intuitive sense - you shouldn't spend more maintaining something than a reasonable percentage of its replacement cost.

Deciding whether to replace or maintain network hardware? Learn the true costs and how Edgeium helps you make smarter IT decisions.

The ASHRAE maintenance cost model is based on commercial office buildings in the US aiming at providing accurate and usable building owning and operating cost data to building owners ...
