Fabricated Metals manufactures only heavy duty enclosures that provide the strength and durability using 12 GA steel and aluminum in our enclosures. Flexibility is also accounted for and built into ...

We fabricate structural frames and enclosures for lithium-ion, lead-acid, and solid-state battery applications across the energy, transportation, telecom, and industrial sectors.

Our practical, durable cabinets are manufactured from aluminum, and lined with CellBlock's Fire Containment Panels. CellBlockEX provides both insulation and fire-suppression, to keep your assets ...

Learn how lithium ion battery storage cabinets enhance industrial safety through fire-resistant construction, regulatory compliance, and smart design features for secure storage and ...

Discover our state-of-the-art lithium ion battery storage cabinets featuring advanced safety systems, intelligent battery management, and modular design for optimal energy storage solutions in industrial ...

Our engineering team specializes in designing and manufacturing custom racks and cabinets that meet the highest standards of safety and performance. If you have a project that ...

From high-protection outdoor cabinets to enclosures for telecom, power, and industrial use, we offer configurable options in structure, material, thickness, and surface treatment to ensure both ...

From concept and design to fabrication and assembly, Bull Metal Products manufactures custom battery enclosures, lithium battery boxes, and battery cabinets with the highest quality and safety standards.

Your control cabinets must feature appropriate corrosion-resistant treatments, with stainless steel options (such as 304 or 316L stainless steel) recommended for areas with high ...

Corrosion-resistant battery storage cabinets for production lines

Designed to exceed IFC24 fire-containment standards, it enables secure storage of bulk, damaged, or prototype batteries without the need for a separate fire-rated room. Lightweight, mobile, and field ...
