What is an IP67 power supply?

Phoenix Contact's IP67 power supplies give engineers flexibility to design applications to meet their specific needs by replacing power supplies located in large, centralized control cabinets with power supplies mounted directly on the machine.

What are the benefits of a trio IP67 power supply?

The TRIO IP67 power supplies reduce or eliminate the need for a separate control enclosure which reduces overall system cost. Mounting the IP67 power supply on or closer to where power is needed reduces cable length and voltage drop that can occur with longer cables.

How do I install the IP67 power supply?

The IP67 power supply can be mounted in any direction without being susceptible to derating. The mounting flanges on the power supply are designed to make installation quick and easy. Local DC and AC OK LEDs on the front of the power supply as well as a DC OK floating signal contact make monitoring input and output power simple and trouble-free.

The TRIO IP67 power supplies reduce or eliminate the need for a separate control enclosure which reduces overall system cost. Mounting the IP67 power supply on or closer to where power is needed ...

Discover IP67 outdoor network cabinets with waterproof, dustproof protection for telecom and electrical equipment. Powder-coated steel, CE certified, -40°C to +55°C operation.
