DanSolar is an expert in configuring systems and offering turnkey contracts for the design, setup, assembly and installation of both standard systems and solar parks.

With our Danish-made CFR solar modules, you get an integrated solution where the solar modules align perfectly with the roof surface, following both horizontal and vertical lines - without visible frames.

With fully integrated solar panels, you'll have an aesthetically beautiful roof that also generates your own electricity. An ideal solution for private homeowners, housing associations, and other building owners ...

Building-integrated solar cells are an ideal solution in terms of reducing CO2 emissions from buildings and be an active player in reducing climate problems we face, having a roof or facade with CO2-free ...

The patented solar modules replace traditional building materials in areas with the highest solar exposure, offering customized colors and shapes tailored to architects' visions. With this, roofs and ...

Solar energy is increasingly becoming a popular source of energy for stand-alone systems. DSE has vast experience with designing and delivering diverse stand-alone solar solutions in the past 20+ ...

Our customers can't believe it! It is a solar plant; they are almost invis-ible and flat, recessed and flush completely with the vertical lines, replacing fully the slate roof where they are installed.

Our team jointly design the desired module, where we will be an active sparring partner who can advise on aesthetic possibilities, and make all the necessary calculations so that the plant is not only ...

12000W All in One Solar Hybrid Inverter with WiFi, Max. 6 Parallel, 48V Split Phase, Built-in 2 MPPT Solar Charge Controller, 48V DC to 120V-240V Inverter for Home, RVs, Lead Acid/Li

The people/staff within DANISH SUN ENERGY has delivered more than 800 PV Solar Systemsto the

Danish solar all-in-one home use

market, most of them within roof based projects from smaller residential systems to large scale projects.
