The PG series 3-Phase PDUs are perfectly suited to server rack installation requiring energy-efficient power distribution to high-density IT equipment in a server room or data center.

Discover JASC's power backup solutions for Telecom operations: power supply with voltage stabilizers, line conditioners, enclosures, batteries, and gensets.

High adaptability for load, it can connect full inductive load or capacitive load. Explore our carefully curated selection of related products below to discover smarter, seamless solutions designed to ...

SiteFlex[®]; 40KW-30KW POWER SYSTEM A 5U power sub-rack based on SiteFlex[®]; MCU system controller and up to six 4 kW or 3 kW SiteFlex[®]; rectifiers for various power applications

The all-new Raritan PX4 Rack PDU doesn't just solve today's power needs; it anticipates tomorrow's power challenges. The PX4 combines 30+ years of battle-tested intelligence with industry-proven ...

The equipment concerned should be developed in such a way that the power supply specification is observed at a physical point, located between the rack input and the power cabling of the ...

Thermal management support allows for flexible installation against the wall, in rows and in hot/cold aisle configurations. Easy access allows fast MTTR (mean time to repair). Intelligent Power[®]; software ...

The configurable GSPS series can provide 30kW, 45kW or 60kW of output power with seamless transition across constant voltage, constant current and constant power limit operating ...

E-T-A's rack mount power management systems deliver reliable, space-saving power distribution for telecom, data centers, and industrial control systems. Scalable, modular, and built for performance.

European Communication Power Supply Rack 30kW Energy Management

SMART SOLUTIONS REFERENCE SUMMARY Solutions Design 30kW 6 Racks with Containment ...
Performance Highlights SmartAisle™ technologies result in a superior PUE performance and ...
