-----

The GGD 380V Low Voltage Switchgear is designed for reliable energy conversion, distribution, and control in AC 50Hz power systems with a rated voltage of 380V and current up to 3150A. It is widely ...

Our main products are the Environmental Test Chamber, Electronic Dry Cabinet, Accelerated Weathering Test Chamber, and all kinds of Drying Ovens. Climatest Symor®; is &quot;Made in China&quot;. We ...

Complete stainless steel distribution cabinets integrate electrical components such as circuit breakers, contactors, relays, instruments, and busbars into a stainless steel cabinet.

It is designed for ease of use, simple maintenance, and maximum operational uptime, making it a preferred choice for a wide range of AC 380V distribution networks.

The Communication Low Voltage Distribution Cabinet is specifically designed for 0.4kV grid voltage systems. It is responsible for converting medium and high-voltage power through a low-voltage ...

Communication Low Voltage Distribution Cabinet Product Overview This AC low-voltage distribution cabinet is suitable for power plants, substations, industrial

This is a low-voltage variable frequency control cabinet integrated with 3 RYE frequency converters, specially designed for multi-motor coordinated speed regulation scenarios in factories.

This AC low-voltage distribution cabinet is suitable for power plants, substations, industrial and mining enterprises and other power users with an AC frequency of 50HZ, rated working voltage of 380V, ...

Infraswin Energy specializes in providing UL508A certified industrial control panels, offering a wide range of voltage configurations, including AC (110/120V, 220/240V, 254/277V, 380/415V, 440/480V, ...
