-----

We've long had a reputation as a provider of never-before-seen power products -- and will offer you all the engineering and manufacturing support you need to customize your generator exactly to your ...

These containers can house batteries for storing excess energy generated from renewable sources such as solar or wind power. They provide a scalable and modular solution for grid stabilization and peak ...

Interport's shipping containers can be fully customized with a wide variety of modification options, depending on your power generation source and battery storage needs.

With our genset containers offer optimal performance in various site conditions. By maintaining high-quality standards for both the engine and the complete containerized power plant package, we ...

Our prefabricated container is designed for rapid rollout. Over 90% of electrical wiring, equipment installation, and testing is completed at the factory, ensuring that once delivered to site, ...

Powered by lithium-ion batteries, this portable product is ready to supply reliable power in challenging situations. It can work in island mode, as a hybrid solution with a diesel generator, or in parallel with ...

At MODS, we design and fabricate high-performance generator and power units built from shipping containers. Our solutions provide reliable energy generation and storage for industries, construction ...

Containerized energy storage seamlessly integrates with solar and wind power projects, addressing the intermittent nature of renewable energy sources. This integration enhances grid ...

These units are ideal for fast deployments of high power level for fixed or permanent duration projects.

our eco&#176; GEN-C series features all-in-one packaged power generation solution, engineered for mobility, easy deployment and scalability. each power container is engineered to meet specific application ...
