What is the global solar inverter market size?

The global solar inverter market size was exhibited at USD 10.34 billion in 2023 and is projected to hit around USD 22.95 billion by 2033, growing at a CAGR of 8.3% during the forecast period of 2024 to 2033. Asia-Pacific accounted for the largest revenue share of around 44% in 2023.

Why is the global solar (PV) inverter market expanding?

The global solar (PV) inverter market is expanding due to rapid expansion of the renewable energy sector. The growing demand and need for green and clean energy are driving the growth and development of global solar (PV) inverter market over the projected period.

Which countries have large solar inverter market shares?

Europe and North America also have large solar inverter market shares because of the support from the government and technological advancement that promotes the use of RE. The most obvious examples are the United States and Germany; both countries witnessed huge new PV installations in the past few years.

What drives the demand for solar (PV) inverter in the global market?

As a result, all these factors are driving the demand for solar (PV) inverter in the global market. The most significant driver of the solar inverter market is the global push towards renewable energy sources to combat climate change and reduce dependence on fossil fuels.

Solar Inverter Market Size, Share, Growth and Industry Analysis, By Type (Central Solar, String Solar, Micro Solar Inverter), By Application (Residential and Commercial), and Regional ...

SOLAR PV INVERTERS MARKET OVERVIEW The global solar pv inverters market size is forecasted to reach USD 14.87 Billion by 2035 from USD 7.79 Billion in 2026, growing at a steady ...

Global Solar PV Inverter market size is expected to reach \$14.07 billion by 2030 at 5.6%, segmented as by central inverters, utility-scale central inverters, containerized central inverters

Global inverter market revenue was \$35.2 billion in 2022 Solar inverters account for 65% of the global inverter market Solar inverter efficiency is expected to reach 98% by 2030, up from 95% in ...

Global market share of solar inverters

The global PV Inverter Market saw 589 GWac of PV inverter shipments in 2024, marking an increase from 536 GWac in 2023. Asia-Pacific held approximately 48.1 % market share in 2025, ...

The global market for Solar Inverters was estimated to be worth US\$ 19600 million in 2024 and is forecast to a readjusted size of US\$ 35722 million by 2031 with a CAGR of 9.0% during the forecast ...

Global Solar Inverter Market Share Report 2025 - This report provides rankings of the top PV inverter manufacturers based on megawatts shipped, which are broken down globally, regionally, ...

Global solar inverter market is projected to witness a CAGR of 6.17% during the forecast period 2025-2032, growing from USD 13.13 billion in 2024 to USD 21.20 billion in 2032. The solar inverters ...

The report also covers global and regional year-over-year market growth, highlighting the countries with the largest inverter markets in 2024. Because of the strong correlation between the ...

The global solar inverter market size was exhibited at USD 10.34 billion in 2023 and is projected to hit around USD 22.95 billion by 2033, growing at a CAGR of 8.3% during the forecast period of 2024 to ...
