Overview Huawei's LUNA2000-215kWh is a next-generation C& I (Commercial & Industrial) hybrid cooling energy storage solution, combining liquid and natural air cooling to maintain maximum ...

Huawei Digital Power has launched the FusionSolar C& I LUNA2000-215-2S10 Energy Storage System, designed to meet the dynamic demands of the commercial and industrial (C& I) ...

Huawei FusionSolar is proud to introduce the industry's first C& I ESS that uses novel smart air and liquid cooling systems, along with advanced safety, thermal management, and power ...

The Vietnamese market for liquid-cooled energy storage systems is characterized by rapid growth, increasing investment, and a focus on sustainable energy development.

Huawei expresses its sincere appreciation to the organizers of Solar & Storage Live Vietnam 2025, as well as to the government agencies, partners, customers, and engineering ...

Huawei's LUNA2000-215kWh is a next-generation C& I (Commercial & Industrial) hybrid cooling energy storage solution, combining liquid and natural air cooling to maintain maximum efficiency -- even ...

In terms of thermal management, Huawei has launched the air-liquid intelligent cooling system, which includes three working modes: active liquid cooling, natural air cooling, and waste ...

Energy Storage System Products List covers all Smart String ESS products, including LUNA2000, STS-6000K, JUPITER-9000K, Management System and other accessories product series.

Innovation in VietnamâEUR(TM)s liquid-cooled energy storage market is focused on enhancing system efficiency, safety, and scalability. Developments include advanced thermal management...

Huawei Vietnam liquid-cooled energy storage system

With 4.5 MWh capacity and 2,236 kW charge/discharge power, it ensures maximum energy efficiency. The innovative liquid cooling system optimizes operating temperature and extends battery lifespan. ...
