---

Huawei has filed a patent detailing a sulfide-based solid-state battery design with energy densities between 180 and 225 Wh/lb, roughly two to three times higher than today's typical electric...

Huawei unveils a game-changing solid-state EV battery with 1,800-mile range and 5-minute charging, alongside a \$1.4B Luxeed investment to accelerate smart EV production, AI ...

Even though Huawei doesn't manufacture batteries, the company is putting plenty of R& D resources into developing a new solid-state battery tech. The newest patent reveals a battery pack that can go for ...

In June 2025, Huawei filed a patent related to a sulfide-based solid-state battery architecture, signaling potential interest in advanced battery technologies beyond its traditional telecom...

Huawei has intensified its ambitions in advanced energy storage by patenting a sulfide-based solid-state battery capable of achieving driving ranges of up to 3,000 kilometres and ultra-fast ...

Huawei has advanced its efforts in energy storage by patenting a sulfide-based solid-state battery. This innovation aims to provide a driving range of up to 3,000 km with ultrafast ...

The appraisal committee unanimously affirmed that the system achieves a world-leading level, closing critical technical gaps in battery energy storage system (BESS) safety both in China ...

Chinese tech giant Huawei has filed a patent for a next-generation solid-state electric vehicle (EV) battery that claims to offer an unprecedented driving range of over 3,000 kilometres on a ...

Huawei has filed a patent for a groundbreaking sulfide-based solid-state battery, marking a bold move into the next generation of electric vehicle (EV) energy storage.
