1. capable of being done, effected, or accomplished: a feasible plan. 2. likely: a feasible theory. 3. suitable: a road feasible for travel.

FEASIBLE definition: 1. able to be made, done, or achieved: 2. able to be made, done, or achieved: 3. possible.... Learn more.

Imagine using the shaded spaces beneath solar panels to cultivate crops, transforming solar farms into dual-purpose lands that produce both energy and food. In this context, recent studies ...

Here are some of the best options for growing plants under the shade of solar panels: Leafy Greens: a top choice for agrivoltaics due to their fast growth, shallow root systems, and ability to thrive in ...

Yes, solar panels are designed to work in winter and typically generate power in all seasons, though their efficiency may be reduced in colder or cloudier conditions. [pdf]

Definition of feasible adjective in Oxford Advanced Learner's Dictionary. Meaning, pronunciation, picture, example sentences, grammar, usage notes, synonyms and more.

FEASIBLE definition: capable of being done, effected, or accomplished. See examples of feasible used in a sentence.

The objective of this mini review is to present and summarize the recent studies on the effect of PV shading on crop cultivation (open field system and greenhouses integrated PV panels), with the ...

Even though agrivoltaics has been successfully practiced in Europe and Asia for the past few decades, many remain skeptical and doubt whether healthy crops can be grown in the shade of ...

Is it feasible to grow ginger under photovoltaic panels

Those solar panels can be raised high enough for tractors and farmworkers to easily pass underneath for all the usual tasks like weeding, pruning, and harvesting. So, can you really grow plants under ...

Feasible comes from faire, the French verb meaning "to do." Doable and feasible therefore originally meant literally the same thing: "capable of being done."

The shading from the solar panels positively impacted soil moisture, providing a more favorable growing environment for both ginger and kale.

Researchers in South Korea have been growing broccoli underneath photovoltaic panels. The panels are positioned 2-3 metres off the ground and sit at an angle of 30 degrees, providing shade and ...

This paper studies the solar radiation distribution under solar panels in the effective growth period of crops by building the model of photovoltaic power station with Ecotect.

feasible (comparative more feasible, superlative most feasible) His plan to rid Trafalgar Square of pigeons by bringing in peregrine falcons to eat them was dismissed as not ...

If something is feasible, it can be done, made, or achieved. She questioned whether it was feasible to stimulate investment in these regions. That may be fine for the U.S., but it's not ...
