A connection of several solar modules is referred to as PV array. A single solar module consists of a number of solar cells (composed of silicon (Si)) which are either connected in series or parallel.

We are committed to excellence in solar container and energy storage solutions. With complete control over our manufacturing process, we ensure the highest quality standards in every solar container and BESS system ...

As Maseru accelerates its renewable energy transition, distributed storage cabinets have emerged as essential infrastructure. Whether you're managing a factory, commercial complex, or solar farm, these systems offer ...

We successfully installed Solar PV-Thermal Water Heating Systems for our client Lesotho Highlands Development Authority (LHDA). This groundbreaking system uses the power of the sun to heat ...

Feasibility study of a 35 MW MOSCET Wind Farm and the construction of a Wind Mast at Semonkong.

Powered primarily from solar energy, these mini-grids minimize the carbon footprint of energy access by optimizing engineering design of battery storage and a backup generator to ensure power flows even when ...

We successfully installed Solar PV-Thermal Water Heating ...

This guide provides step-by-step instructions on how to install your R-BOX-OC outdoor solar battery cabinet, including site selection, assembly, wiring, and system testing. [pdf]

The pilot mini-grid and those of the planned larger portfolio are solar PV hybrids with battery storage and limited LPG backup generation. The hybrid nature of the design is to ensure 24-hour, year-round ...

Successful pilot hybrid solar PV mini-grid in Lesotho paves way for a further 10 mini-grids that will provide

Lesotho solar cabinet-based high-pressure type

first-time energy access to 30,000 people and clean power to seven health clinics.

Designed and manufactured in Australia, these cabinets reduce the fire and safety risks associated with lithium batteries by combining active cooling, secure storage, and spill containment in one durable unit.
