LONGi offers half-cut and bifacial monocrystalline panels made with laser-grooved PERC cells. With extra enhancements, LONGi modules achieve up to 20.9% efficiency..

"LONGi offers three series of solar modules: Hi-MO 4, Hi-MO 5, Hi-MO 4m is a monofacial product of the Hi-MO 4 series, and is mainly used on the roofs of industrial, commercial and residential buildings. Hi ...

The Longi 505W Bifacial Solar Panel is designed for high-output performance in residential, commercial, and utility-scale solar installations. This advanced photovoltaic module is compatible with leading ...

The LONGi 615W Bifacial Solar Panel is a high-performance solar module designed to maximize energy generation using advanced bifacial technology. It efficiently captures sunlight from both the front and ...

Featuring a sleek silver-white design and a durable 30mm frame, this solar panel combines aesthetics with durability. Its compatibility with MC4 connectors and 1400mm cables ensures easy installation and flexibility ...

Does the Longi panel support enhanced energy capture with bifacial technology? Yes, the panel's bifacial cells allow it to absorb sunlight from both the front and rear surfaces, significantly boosting overall energy yield.

Bifacial Technology Advantage: The LONGi 540W's bifacial design can increase energy yield by up to 30% compared to traditional monofacial panels, making it particularly valuable for ground-mount ...

Discover bifacial glass-glass modules from LONGi - for maximum energy yields, extreme resilience and long-lasting performance in demanding PV projects.

LONGi had scaled up high-volume manufacturing of bifacial modules and has become the largest producer of

Longi photovoltaic panel bifacial components

bifacial PV products, with cumulative shipments of bifacial modules surpassing 20GW in ...

Backed by advanced technologies, LONGi solar panels feature excellent power ratings and top conversion efficiencies, and can be used across all market segments. LONGi's field-proven bifacial modules deliver ...
