Aed Energy, a UK-based developer of next-generation thermal energy storage, has announced a new pilot project at Pan-Atlantic University (PAU) in Lagos, Nigeria, as part of ZE-Gen's international ...

Over that time, we've deployed and are now developing over 500 MWh of battery storage projects, giving us a front-row seat to how this technology is reshaping power reliability across the continent.

A Nigeria Sovereign Investment Authority (NSIA) affiliate, RIPL Energy Company Limited, on Thursday signed a Memorandum of Understanding (MOU) with GIB EnergyX Slovakia s.r.o. to co-develop a ...

In Nigeria, the reliance on solar mini-grids, off-grid systems, and hybrid energy models highlights the importance of efficient storage. With the national grid facing frequent outages, storage provides energy reliability for rural ...

The session, themed "From Innovation to Adoption: Battery Storage and Nigeria's Role in the Global Value Chain," explored the central role of domestic battery production in unlocking the country's industrial and ...

Empower New Energy has signed two new solar and battery storage contracts with Jendol Superstores and Juddy-Bolema Industries Limited in Nigeria, marking a significant step in the country's ...

President Bola Tinubu has disclosed that the Nigeria-Grid Battery Energy Storage System will benefit from a planned \$500 million facility from the African Development Bank (AfDB). Tinubu added that the ...

The African Development Bank commits \$1.2 million to support a feasibility study on Battery Energy Storage Systems in Nigeria, aiming to boost grid stability and renewable energy integration.

Kaduna Electric has signed an agreement to develop a 100 MW solar project with battery storage to strengthen electricity supply across Kaduna, Sokoto, Zamfara and Kebbi states in northern...

Nigeria New Energy Manufacturing Energy Storage Project

The project highlights how Nigerian developers are moving beyond basic solar adoption toward integrated energy systems that prioritise uptime, operational efficiency and long-term resilience.
