To record and summarize the discussion in the comments, while the OED mostly uses the hyphen, many other dictionaries don't, and the ngrams show higher non-hyphenated usage than hyphenated.

In addition to purchasing photovoltaic panels, a wind turbine, or a small hydropower system, you will need to invest in some additional equipment (called "balance-of-system",) to condition and safely ...

Unlike other solar panels, amorphous solar panels don't use ...

"Non-" is defined as "a prefix meaning "not," freely used as an English formative, usually with a simple negative force as implying mere negation or absence of something (rather than the ...

A person who is accustomed to that framework may feel the need to use the phrase "non-zero probability" or "non-zero chance" to make it clear that whatever is talked about is not impossible. ...

What is the correct way to apply the prefix "non-" to negate a (maybe dashed) compound adjective? Suppose that we want to negate a generic compound adjective " adjective1 adjective2 ".

...

Non-PV Solar Power: Edit: Sweet, I'm on hackaday!Hello, in this Instructable I will show you how to generate solar power using inexpensive solid state parts and without PV (photovoltaic) cells or panels.

In this comprehensive guide, we'll delve into the science behind non-reflective solar panels, exploring their mechanisms, benefits, and the transformative impact they have on the renewable energy ...

At New Day Solar, we specialize in designing and installing zero export systems tailored to your unique energy needs.

Solar energy systems can be divided into two major categories: photovoltaic and thermal. Photovoltaic cells

Non-PV panels

produce electricity directly, while solar thermal systems produce heat for buildings, industrial ...

The comments on the video suggested that both Black and non-Black people found it funny, but I'm unsure how widely acceptable this type of humor is. In real life, are there any ...

25 Does "non-" prefixed to a two word phrase permit another hyphen before the second word? If I want to refer to an entity which is defined as the negation of another entity by attaching "non-" it seems ...

These panels are used in both residential and commercial settings. In this article, you'll learn what glare is, the technology behind non-reflective ...

One option is a standard ground mount, where solar panels are secured to a stationary metal frame close to the ground. The other is pole mounting, which often incorporates solar tracking.

Fortunately, today there are many viable solar panel alternatives that allow everyone the opportunity to harness the sun's rays. Even if it's on a small scale, read on to learn about the...

Except "non" is not an English word, it is a prefix of Latin origin. Which is why American style manuals will always ask you to merge it with the subsequent word, without a hyphen. British rules differ, and ...
