Octopus Energy has today launched its latest smart tariff, promising to slash bills and help unlock demand for domestic solar PV and energy storage systems.

In mid February 2023 Octopus Energy released details of a forthcoming tariff for solar and battery owners, Octopus Flux. This new tariff was designed as a replacement of the Tesla Energy Plan that ...

This innovative tariff encourages energy usage overnight by charging batteries and EVs when energy supply is plentiful.

Octopus Flux is an import and export tariff optimised to give you the best rates for consuming and selling your energy and support the grid during peak periods. Super cheap rates between 02:00 - 05:00 ...

Intelligent Octopus Flux is a smart import and export tariff optimised to give you the best rates for consuming and selling your energy. Import rates even lower than standard Flux, we'll make sure your ...

Octopus Energy has launched a brand new tariff for customers with solar, a battery and an electric vehicle at home. Octopus Flux will be able to save customers more than £326 a year ...

An exclusive tariff for customers with both solar panels and battery storage. The Octopus Flux tariff rewards you for helping the grid.

I started writing after I was asked on Twitter about a new electricity tariff called "FLUX" offered by Octopus Energy. Would it be cheaper or more expensive than their "GO" tariff?
