Our team holds active electrical licenses across multiple states, manages large-scale commercial solar installations, and understands the real-world demands of off-grid power systems.

We make mobile solar containers easy to transport, install and use. Make the next step towards renewable energy with our Solarcontainer! The challenges of our time are more present than ever.

Our containers are designed to provide a turnkey solution for off-grid living or working, with all the features and amenities you need to live comfortably and sustainably.

Ideal for temporary power, remote locations, or emergency backup, these all-in-one solutions combine high-efficiency solar generation with integrated storage for rapid deployment in construction, events, ...

Our foldable solar containers combine advanced photovoltaic technology with modular container design, delivering rapid-deployment, off-grid renewable energy with industry-leading efficiency.

MOBIPOWER containers are purpose-built for projects where energy demands go beyond what a trailer can deliver. These rugged, self-contained systems integrate large solar arrays, advanced battery ...

Our core team brings 15+ years in renewables and container manufacturing. From system design to factory testing, we size and deliver SolarBox Mobile Solar Containers that meet site needs reliably ...

Leveraging the strong industrial foundation of the CIMC Group, the company offers robust and scalable modular solar containers designed for diverse applications, including off-grid electrification, industrial ...

Discover our range of innovative solar panels on shipping container products engineered to meet your renewable energy needs with maximum efficiency and reliability.

Off-grid solar container manufacturers with ultra-large capacity

Microgreen offers large-scale energy storage that is reliable in harsh environments, cost effective with top energy density, and provides best return on investment.
