Council today approved Ottawa's 2026 Budget, which invests in the services residents rely on every day, and the key priorities that make Ottawa a safe, reliable and affordable city.

Arts, patrimoine et événements tourisme Ottawa, événements, théâtres, musique, galeries d'art, foires et musées...

Our foundation is built on collaboration, continuous learning, innovation and open dialogue. The mandate of Information Technology Services is to create business value by providing innovative and ...

This article explores the benefits and applications of liquid cooling in energy storage systems, highlighting why this technology is pivotal for the future of sustainable energy.

Battery Energy Storage Systems (BESS) are energy retention systems that store and then discharge electricity back into the electricity grid when supply is low or when energy is most expensive.

Liquid cooling ensures optimal heat control, preventing overheating during high-power charging, thus enhancing the system's reliability and efficiency. The liquid cooling system is more space-efficient than traditional air ...

"Ottawa's 200th anniversary is a chance to showcase to people visiting Ottawa who we are as a city - this is a destination that is creative, collaborative, and welcoming.

The City of Ottawa provides accommodation to applicants during all parts of the hiring process, upon request. If contacted to proceed to the selection process, please advise us if you require any ...

Oct 15, 2025 #183; Traditional liquid cooling systems of containerized battery energy storage power stations cannot effectively utilize natural cold sources and have poor temperature uniformity.

Have you ever wondered why more and more large-scale energy storage plants are moving away from air-cooled systems and choosing liquid cooling BESS solutions instead?

Living in Ottawa property taxes, by-laws, licenses and permits, animals and pets, water and environment...

The City, together with its partners, Ottawa Tourism and Ottawa Bluesfest, encourages residents and visitors to stay tuned for more details about the big day and other announcements ...

Whether you need residential photovoltaic storage, commercial BESS systems, industrial energy storage, mobile power containers, or utility-scale photovoltaic projects, WALMER ENERGY has the engineering ...

The system employs an innovative "full liquid cooling + top exhaust" design, breaking the "heat island" scenario. This innovation allows energy storage stations to remain "cool" even in high-temperature ...

This system employs an innovative design of "full liquid cooling + top exhaust," breaking the "heat island" crisis. This innovation allows energy storage stations to remain "cool" even in high-temperature environments, ...

Liquid-cooled energy storage power stations are advanced facilities designed to store energy in a liquid medium, often utilizing specialized systems to manage heat, optimize efficiency, and ensure reliability.
