-----

The Cabinet offers flexible installation, built-in safety systems, intelligent control, and efficient operation. It features robust lithium iron phosphate (LiFePO<sub>4</sub>) batteries with scalable capacities, supporting on ...

Maximize solar energy usage, reduce energy bills, and ensure reliable backup power. Discover advanced inverters, customizable battery capacities, and remote monitoring options with HighJoule.

This integrated solar battery storage cabinet is engineered for robust performance, with system configurations readily scalable to meet demands such as a 100kwh battery storage requirement.

As the leading vertically integrated manufacturer of lithium iron phosphate battery systems, GSL ENERGY has provided various battery solutions for nearly all kinds of ESS applications.

Featuring 215kWh of LiFePO<sub>4</sub> storage and a 120kW PCS, this system is engineered for industrial parks and commercial complexes that require high-power energy management.

Safety designs such as water and electricity separation, three-level fire protection + explosion venting + exhaust, liquid cooling + dehumidification design, all ensure the safety of the energy storage ...

The 350kWh All-in-one C& I Energy Storage Cabinet features a highly integrated design with built-in BMS, EMS, and PCS. Supporting off-grid and grid use, it cuts energy costs, boosts efficiency, and ...

Equipped with a robust 15kW hybrid inverter and 35kWh rack-mounted lithium-ion batteries, the system is seamlessly housed in an IP55-rated cabinet for enhanced protection against water and dust, ...

With 100kW PCS and 215kWh of LiFePO<sub>4</sub> battery storage, it delivers robust, efficient, and versatile energy management. This solution integrates advanced BMS and EMS technologies to provide real ...
