Our outdoor enclosure is uniquely designed that comes with technical structure with full modularity combination. The enclosure is with IP55 protection rating to EN60529/10.91 Double layer cabinet wall ...

The Base Station Energy Cabinet is a fully enclosed, weather-resistant telecom energy cabinet designed to provide reliable power distribution and battery backup for outdoor communication networks.

We offer full customization of cabinet dimensions, internal layouts, cutout positions, structural reinforcements, and surface coatings to perfectly match your site needs.

We are the leading manufacturer company for cabinet and metal enclosure for industrial automation, audio visual sector, networking, telecommunication, and power application.

This small power dense system is purely based on pluggable breakers and rectifiers and can easily be configured to fit your required application, even in field.

It integrates multiple power generation options, including solar panels and wind turbines, along with a lithium
