Is Saudi power procurement Company (SPPC) a prequalified bidder?

According to foreign media reports, the Saudi Power Procurement Company (SPPC) has officially announced the list of prequalified bidders for its first battery energy storage system (BESS) procurement.

What is Saudi Arabia's battery storage program?

The projects mark the first phase of Saudi Arabia's ambitious battery storage program, designed to support its goal of 50% renewable energy by 2030. Each 500 MW facility will operate for four hours, providing 2,000 MWh of total power capacity, said the SPPC, at the following locations:

Will Saudi Arabia be able to deploy battery energy storage systems by 2030?

According to Saudi Energy Minister Prince Abdulaziz bin Salman, the nation has set a goal of deploying 48 GWh of battery energy storage systems by 2030. This ambitious target not only supports Saudi Arabia's energy transition but also injects fresh momentum into the global renewable energy and energy storage markets.

Who are the bidders for a 2 GW / 8 GWh battery energy storage system?

The Saudi Power Procurement Company (SPPC) has released a list of 33 prequalified bidders for its 2 GW / 8 GWh battery energy storage system (BESS) tender. The tender, structured as a build-own-operate model, attracted major international players including Masdar, ACWA Power, EDF, TotalEnergies, Jinko Power and more.
