---

Energy Resources Senegal (ERS), through its subsidiary Teranga Niakhar Storage (TNS), has successfully secured financing for the Niakhar Solar + Storage project, a 30 MW ...

Senegal has officially inaugurated the "Walo Storage" plant in Bokhol (Saint-Louis Region) on January 22, 2026. This marks a technological milestone as West Africa's first large-scale ...

our energy delivery, Walo Storage marks a major technological breakthrough for the country. The installation facilitates the increasing integration of solar energy while avoiding the emission

With the launch of Walo Storage, Senegal's energy sector enters a new era of sustainable solar power and reliability.

Independent power producer Africa REN has commissioned a solar-plus-storage project in Senegal. The Walo Storage project is the first solar installation in West Africa to include energy ...

Described as a first for West Africa, a solar PV installation with battery storage project dedicated to frequency regulation has been commissioned in Senegal.

As Senegal looks to the future, Walo Storage will play a vital role in shaping the country's energy landscape, contributing to its ambitious climate goals, and ensuring a more secure and ...

Senegal has begun commercial operations at a new solar energy facility that combines photovoltaic power with lithium-ion battery storage, the first of its kind in West Africa, as the country ...

Officially entering commercial operation on July 14, 2025, it is connected to the national grid operated by Senelec to enhance grid reliability, support peak demand, and provide backup ...

# Senegal Energy Storage Equipment Project

The project aims to enhance grid reliability, expand clean energy access and support Senegal's sustainable energy transition. Construction on the project began in May 2025, with ...
