With the launch of Walo Storage, Senegal's energy sector enters a new era of sustainable solar power and reliability.

Senegal and sustainable infrastructure developer Africa REN have commissioned the Walo Storage facility in Bokhol, marking the first grid-connected solar-plus-battery ...

Combining photovoltaic solar with a storage system is a unique solution to meet the current and future needs of the grid. In order to complement and intensify our local impact, Walo Storage is committed ...

Senegal has officially inaugurated the "Walo Storage" plant in Bokhol (Saint-Louis Region) on January 22, 2026. This marks a technological milestone as West Africa's first large-scale ...

The project was designed to improve grid stability, deliver energy during peak demand hours and provide backup power in case of outages. Completed on time, the facility is now ...

The installation facilitates the increasing integration of solar energy while avoiding the emission of 26,600 tons of CO2 annually--the equivalent of the yearly emissions of over 18,000 cars.

Senegal has begun commercial operations at a new solar energy facility that combines photovoltaic power with lithium-ion battery storage, the first of its kind in West Africa, as the country ...

Senegal and sustainable infrastructure developer Africa REN have commissioned the Walo Storage facility in Bokhol, marking the first grid-connected solar-plus-battery installation of its ...

Independent power producer Africa REN has commissioned a solar-plus-storage project in Senegal. The Walo Storage project is the first solar installation in West Africa to include energy ...

Senegal Solar Energy Storage Containerized Fixed Type

Described as a first for West Africa, a solar PV installation with battery storage project dedicated to frequency regulation has been commissioned in Senegal.
