Where is Siemens Gamesa located?

Today, the Siemens Gamesa plant, where wind turbines for offshore installation are built, is located on an area of 160,000 square meters - the size of around 24 soccer fields - and directly on the quayside of the port. In addition to large and small wind farms in the North and Baltic Seas, Siemens Gamesa also supplies projects worldwide.

What does Siemens Gamesa do?

In addition to large and small wind farms in the North and Baltic Seas, Siemens Gamesa also supplies projects worldwide. Siemens Gamesa is now a wholly-owned subsidiary of the DAX-listed, independent energy technology company Siemens Energy.

Where is Siemens Gamesa's offshore wind turbine factory located?

Reliable offshore wind energy is vital for energy transition. In 2018, Siemens Gamesa opened a modern factory for offshore wind turbines in Cuxhaven, Germany. Located on the waterfront, it created about 1,000 jobs for the region. Do you have any questions about our Cuxhaven wind turbine factory? Are you interested in joining the team?

Who owns Siemens Gamesa?

Siemens Gamesa is now a wholly-owned subsidiary of the DAX-listed, independent energy technology company Siemens Energy. The plant in Cuxhaven currently provides jobs for more than 1,000 people, over 870 of whom are permanent colleagues.
