---

The company was established in 1994 and specializes in the research and development, design, manufacturing, sales, leasing, training, and maintenance of high-power and high-voltage load ...

The DPA 500 delivers power protection from 100 to 500 kW (one to five modules) in a single cabinet (vertical scalability). Cabinets can operate in a parallel configuration to build a system of up to 3 MW ...

Explore Galaxy VL from every angle to see how this high-density, modular, scalable, and touch-safe design can expand your power with no scheduled downtime and no extra footprint.

This product adopts cold plate liquid cooling technology, capable of achieving up to 500kW power loading within a single cabinet, accurately simulating the real heat generation scenarios of high ...

Plug-and-play container design allows for easy installation with minimal on-site labor. Features LiFePO4 batteries, a safe, reliable, and long-life energy source. Simple expansion by connecting multiple units ...

500kW power output with modular design, supporting expansion up to 1.5MWh (customizable based on your product specs). Seamless integration with existing inverters for hybrid energy systems.

Highly efficient, modular, high-density 400V 3-phase UPS frame that is scalable up to 500kW. It delivers top performance for medium, large, and edge data centers, as well as critical infrastructure in ...

All Power related range for RF communication & In-vehicle Application includes AC&gt;DC Power Supply Unit, DC&gt;DC Voltage Converter (Step down & Step up), DC&gt;AC Inverter, Uninterruptible Power ...
