What is a home solar system?

Home Solar Systems are designed to maximize solar for powering your home, reducing grid dependence and lowering electricity costs. EcoFlow offers both grid-tied and off-grid solutions to fit your needs. Explore our Home Solar Systems and Solar Kits to find your perfect fit.

What are all-inclusive solar kits?

These all-inclusive solar kits are designed for simplicity, featuring everything you need for a seamless setup and installation. With high-performance lithium battery options and versatile connectivity options, our solar power systems can be connected to solar, wind, backup generator, or utility grid sources.

What is a grid-tied home solar system?

Grid-tied home solar systems can convert any solar into the ready-to-use power for your home with just a simple plug-in. The stored power can work as the supplement to grid power daily, cutting down your electricity bills, while offering a peace of mind during power outage. *Currently available in Utah only.

What are pre-made solar kits?

Look no further than our pre-made solar kit packages. These all-inclusive solar kits are designed for simplicity, featuring everything you need for a seamless setup and installation.
