-----  
What is Algeria doing with solar energy?

Building on the Solar 2,000 MW and Solar 1,000 MW programs launched by Algeria's state-owned company Sonelgaz, which include a wide range of solar energy initiatives, the government aims to diversify its revenue streams and reduce reliance on natural gas, which is currently primarily used for power generation in the country.

When will a 300 MW solar power plant be built in Algeria?

The state-owned China State Construction Engineering Corporation (CSCEC) began building a 300 MW solar power plant in Algeria's Oued Province in March 2024 as part of the Solar 1,000 MW program. The project is slated for completion by late 2025 or early 2026.

Will Algeria build a one-gigawatt solar energy project in 2021?

Towards this end, Algeria launched a tender for a one-gigawatt solar energy project in 2021, comprised of building five power generation sites ranging from 50 to 300 MW each.

How much electricity does Algeria generate a year?

Algeria currently generates a relatively small amount of its electricity (e.g., three percent or 686 MW annually), from renewable sources, including solar (448 MW), hydro (228 MW), and wind (10 MW).

Lives in: Algiers, Algeria November 18, 2025 Algeria has fast-tracked its ambitious solar energy program, unveiling fresh details of a 3,200 MW solar plant rollout that is now moving into the ...

ALGIERS - (Exclusive to Al-Jazair Today) - In a scene reminiscent of a science fiction movie, thousands of gleaming solar panels stretch across the vast Algerian desert, forming a stunning ...

Seasonal solar PV output for Latitude: 36.7405, Longitude: 3.1159 (Algiers, Algeria), based on our analysis of 8760 hourly intervals of solar and meteorological data (one whole year) retrieved for that ...

This abundant solar resource significantly contributes to Algeria's clean energy ambitions, positioning it as a key player in the global transition to renewable energy. In the context of ...

780 MW Solar Plants - CWE, HXCC A Chinese consortium comprising China International Water & Electric

Algiers, Algeria - President Abdelmadjid Tebboune has set ambitious goals for Algeria to diversify its energy sources, aiming to significantly ramp up its solar capacity. With a current ...

Algeria is launching 3 GW of solar tenders to diversify its energy sector. Discover how these new renewable energy projects aim to reduce gas dependency and build a local industry.

The 3rd Edition of The Solar Week Algeria 2026 concluded successfully on 31st January 2026 in Algiers, reaffirming Algeria's continued momentum toward a more resilient and sustainable ...

Other governmental entities active in renewable energy include the Ministry of Environment and Renewable Energy, the Ministry of Energy and Mines, and the Regulatory Gas and ...

Algeria enjoys high solar intensity and ideal weather conditions throughout the day, but they are not effectively exploited yet. The main objective of this study is to evaluate the economic ...
