Should I install solar panels if I can't afford them?

Once you have your solar panels installed, you can reap these benefits and more. If you aren't in a position to install solar right now because you rent or you can't afford them, ask your energy company about signing up for community solar. You might even be able to get your neighborhood to sign on to solar for everyone.

Are solar panels worth it?

Solar panels might be more valuable on some homes than others, though, because areas with lots of clouds may struggle to generate solar power. Even in cities that don't have the perfect climate, though, homes with solar power are predicted to have better access to the power necessary for constant cooling than others.
