In addition to its environmental and health benefits, solar systems are becoming a must, as Haiti navigates fuel crises and diesel generators are less and less a viable option for power.

Average willingness to pay (WTP) for off-grid solar and supporting appliances is substantial, especially in non-electrified areas, but there is still an affordability gap to overcome.

Your #1 source for technology and solar energy in Haiti. The goal of our company is to serve Haiti by providing state of the art services and products at a very reasonable price.
