What is the global solar power market size?

Our premium consulting services are available for an additional fee is designed to help you gain a competitive edge. The global solar power market size was valued at USD 253.69 billion in 2023 and is projected to be worth USD 273 billion in 2024 and reach USD 436.36 billion by 2032, exhibiting a CAGR of 6% during the forecast period.

What is the global solar PV market report?

This report forecasts volume and revenue growth at global, regional, and country levels and analyzes the latest industry trends in each sub-segment from 2018 to 2030. For this study, Grand View Research has segmented the global solar PV market report based on, connectivity, mounting, end use, and region.

What is the market share of solar energy in 2024?

By technology, solar photovoltaic commanded 99.6% of the solar energy market share in 2024; concentrated solar power lags with 0.4% but still offers niche benefits such as long-duration thermal storage.

How will solar impact the energy industry?

The industry remains optimistic about the role of solar in achieving energy dominance and meeting rising electricity demand. State-level initiatives and corporate demand will gain more relevance and drive solar development, potentially mitigating the impact of federal mandates.

The Solar Energy Market Report 2025 highlights key trends, workforce developments, investment flows, and other factors shaping the future of the industry. Backed by influential investors ...

Solar Energy Market Size & Share Analysis - Growth Trends and Forecast (2026 - 2031) The Solar Energy Market Report is Segmented by Technology (Solar Photovoltaic and Concentrated ...

WORLDMETRICS REPORT 2026 Solar Power Industry Statistics The solar power industry is experiencing rapid growth in capacity, value, and employment worldwide.

Sources: China Photovoltaic Industry Association, NEA results, February 2025; Climate Energy Finance, Monthly China Energy Update, February 2025; IEA, National Survey Report of PV ...

Solar power industry revenue

The year 2024 was a true landmark year for solar power. Global solar installations reached nearly 600 GW - an impressive 33% increase over the previous year - setting yet another ...

The solar PV is comparatively new in the solar power sector thus, there is a lot of research and development going to figure out new applications and improving on the current technology which will ...

The global solar power market is projected to grow from \$253.69 billion in 2023 to \$436.36 billion by 2032, at a CAGR of 6% in the forecast period

Solar PV Market Summary The global solar PV market size was valued at USD 334.21 billion in 2024 and is projected to reach USD 609.30 billion by 2030, growing at a CAGR of 10.6% from 2025 to ...

The Solar Energy Market size was valued at USD 148.39 Billion in 2024 and the total Solar Energy revenue is expected to grow at a CAGR of 23.1% from 2025 to 2032, reaching nearly USD ...
