-----

The government of Sri Lanka has entered into a power purchase agreement (PPA) with Australian firm United Solar Group (USG) for a major floating solar power (FPV) and storage project.

Sri Lanka has started building its largest renewable project, a \$140 million, 100 MW solar park with 12 MWh of storage.

Construction of the "Rividanavi" solar power park, the largest renewable energy project in Sri Lanka, began today under the patronage of President Anura Kumara Disanayake.

As the project also includes a 12 MWh battery storage facility, it is expected to provide strong support in maintaining stability within the national electricity system.

The Maha Oya facility is designed to store excess renewable energy from solar and wind sources, thus creating supporting infrastructure for Sri Lanka's target of generating 70% of its electricity from ...

Sri Lanka's energy sector is entering a transformative phase with the planned construction of the Maha Oya Pumped-Storage Power Station -- the country's first large-scale ...

The project establishes Sri Lanka's largest non-government-funded battery energy storage system (BESS), powered by solar photovoltaic (PV) technology. The Battery Commissioning Event ...

Bible and Tract Society of Lanka. The project establishes Sri Lanka's largest non-government-funded battery energy storage system (BESS) provide a power supply of 134 MW. The project is proposed ...

Construction of the Siyambalanduwa "Rividanavi" Solar Power Park, Sri Lanka's largest renewable energy project, began today (06) under the patronage of President Anura Kumara ...
