How many gallons is a SuperStor ultra stainless steel storage tank?

The SuperStor Ultra Stainless Steel Storage Tank is appropriate for both residential and commercial applications. It is available in five sizes, ranging from 20 to 119 gallons. The SuperStor Ultra Storage Tank is backed by a limited 10 year limited warranty. No registration is required.

What is a SuperStor glass-lined storage tank?

SuperStor Glass-Lined Storage Tanks from HTP increases the storage capacity of any hot water system. The SuperStor Glass-Lined Storage Tank efficiently maintains hot water, allowing heat losses of 1/2 degree Fahrenheit per hour. It is made with a high temperature porcelain enamel and furnished with two magnesium anode rods.

Does a SuperStor ultra need a heat source?

The SuperStor Ultra Indirect Water Heater draws energy from a boiler and thus does not need its own heat source. Hot boiler water flows through an internal heat exchanger in the tank, heating the domestic water. The SuperStor Ultra boasts 3-5 times more recovery than conventional gas-fired or electric water heaters.

What is a SuperStor ultra water heater?

The SuperStor Ultra is a high performance indirect water heater that can generate over 50% more hot water than many water heaters of a similar size. It has minimal heat loss, thanks to a 2" thick environmentally safe water blown foam insulation.
