Headquartered in Switzerland, we deliver scalable, site-ready solutions that integrate battery technology, power conversion and intelligent energy management into one reliable system.

These installations embody what B-VAULT FlexGrid was designed to do: deliver compact, compliant, and intelligent energy storage where it's needed most, without compromise on ...

UltraBattery™; is a hybrid technology between a conventional Valve Regulated Lead Acid (VRLA) battery and ultra-capacitor technology. The cell manufacturer claims increased performance (more energy ...

Primeo Energie will use our storage system to provide energy flexibility. The battery stores surplus electricity from renewable sources and feeds it back into the grid as needed. In this way, fluctuations ...

Utility EWS AG and developer MW Storage have completed the expansion of a battery energy storage system (BESS) project in Switzerland from 20MW to 28MW, making it the country's ...

Against this backdrop, Axpo is investing in one of Switzerland's largest battery storage facilities, as well as several projects in neighbouring European countries.

Swiss energy trading group Axpo and local integrated energy solutions provider energieUri AG held a ground-breaking ceremony for two battery energy storage system (BESS) ...

So there you have it - Switzerland's energy storage landscape in 2025 isn't just about electrons in boxes. It's a wild ride of innovation where precision engineering meets environmental ...

Flexbase Group has begun construction on what could become one of Europe's largest flow battery storage installations, breaking ground on an 800 MW/1.6 GWh redox flow system in ...

Swissgrid sees battery storage as a key technology for the energy transition. It not only facilitates the

Swiss battery energy storage system

integration of renewable energies, but also increases the flexibility of the entire ...
