Headquartered in Switzerland, we deliver scalable, site-ready solutions that integrate battery technology, power conversion and intelligent energy management into one reliable system.

Utility EWS AG and developer MW Storage have completed the expansion of a battery energy storage system (BESS) project in Switzerland from 20MW to 28MW, making it the country's ...

Redux Energy supplies Battery Energy Storage Systems (BESS) in line with Swiss quality standards, which are the highest in the world in terms of safety, longevity and performance.

One of the country's most promising innovations comes from BTRY, an Empa and ETH Zurich spin-off. Led by CEO Moritz Futscher, BTRY has developed ultra-thin, solid-state batteries ...

A gravity battery developed in Switzerland stores renewable energy in heavy blocks of material - an idea that is attracting interest around the world, especially in China.

We're excited to take an important step in Switzerland's energy transition together with Primeo Energie. In Kappel, in the canton of Solothurn, one of the largest battery storage systems in Switzerland is ...

Swiss energy trading group Axpo and local integrated energy solutions provider energieUri AG held a ground-breaking ceremony for two battery energy storage system (BESS) ...

Switzerland's latest battery energy storage system (BESS) entrant has hit the ground running, with two 2 MW projects with Schindler and Energie Wettingen either live or underway.

Swissgrid sees battery storage as a key technology for the energy transition. It not only facilitates the integration of renewable energies, but also increases the flexibility of the entire ...

Switzerland produces batteries for energy storage cabinets

The EKZ Volketswil Battery Energy Storage System is an 18,000kW energy storage project located in Volketswil, Zurich, Switzerland. The electro-chemical battery energy storage ...
