More than \$14 billion in clean energy investments in the U.S. have been canceled or delayed this year, according to an analysis released Thursday, as President Donald Trump's pending megabill has ...

The Trump administration's cancellation of the largest solar project in the United States has sparked confusion and concern among Republicans and Democrats alike.

President Donald Trump on Wednesday said his administration will not approve solar or wind power projects, even as electricity demand is outpacing the supply in some parts of the U.S.

Starting with the direct tax implications of HR 1, this strategy of energy subtraction has undermined solar and storage projects across the country. The Department of Energy has cancelled ...

Delays in solar project schedules tend to be relatively short in duration, and reports of delays are more common than cancellations: less than 1% of planned solar capacity is entirely ...

Residents and local restrictions are delaying and blocking renewable energy projects in the United States at an accelerated rate, according to a study from Columbia University. From pv ...

More than 60 large wind and solar farms under development on federal lands, such as Jackalope Wind, are being stymied. But the administration is also holding up hundreds of wind and ...

At least 35 commercial-scale solar power projects that were under at least preliminary review by BLM when President Donald Trump took office still await action.

U.S. President Donald Trump has used his second term in the White House to stymie development of wind and solar energy facilities that were a cornerstone of former President Joe ...

# The country has stopped solar power generation

Since taking office, the Trump Administration has paused permits on all new wind and solar projects on public land, both onshore and offshore. New wind and solar power installations, and...
