On April 9, CATL released the world's first 5-year zero-degradation energy storage system that can be mass-produced - CATL Tianheng.

On May 7th, 2025, CATL has unveiled the world's first mass-producible 9MWh ultra-large-capacity energy storage system solution, TENER Stack, setting a new industry benchmark with ...

Competition in the electrochemical storage market, which includes batteries, should not be limited to price wars between market participants as CATL needs to use its resources to beat ...

Chinese battery giant CATL has recently unveiled Tianheng, the world's first mass-producible energy storage system with zero degradation in five year.

CATL released the Tianheng Energy Storage System, the world's first energy storage system with zero degradation over five years. This system can be mass produced on a large scale, ...

As if Tesla's Megapack business didn't have enough competition in China, it now has to face one of the world's biggest energy storage system by the largest battery maker, CATL. Called...

CATL's launch of Tianheng represents not only an impressive leap forward in energy storage technology but also signals a trend towards longer-lasting, safer, and more cost-efficient ...

Chinese battery giant Contemporary Amperex Technology Co Ltd (CATL, SHE: 300750) has launched its new energy storage system Tianheng to further tap the energy storage market. The ...

Chinese battery giant Contemporary Amperex Technology Co Ltd (CATL, SHE: 300750) has launched its new energy storage system Tianheng, or Tener, to further tap the energy storage ...

Tianheng energy storage system leads the world

CATL has made a breakthrough in promoting the high-quality development of the energy storage industry with its zero-attenuation, high-energy and truly safe energy storage system.
