-----

Designed for durability and security, these enclosures actively shield your energy storage solutions from harsh weather, temperature extremes, and external damage. To ensure your batteries operate at ...

The microprocessor-based digital temperature controller allows temperature performance to be easily verified with a digital over-temperature safety cut out fitted to all models. All /RH models are fitted ...

The X-Treme Series Auto Dry Cabinets are suitable for almost all de-humidification applications. This is the best looking and most controllable low humidity dry storage cabinet available anywhere.

Outdoor Cabinet for Modular Energy Storage Solutions Outdoor IP55 cabinets act as a robust fortress, shielding the sensitive components of energy storage systems from harsh weather conditions, ...

The B-Cab (battery storage cabinet) is based on lithium iron phosphate (LFP) chemistry and an efficient thermal management system, ensuring safety thanks to liquid cooling and a fire protection system.

Overview Solis/V-TAC 80kW/156kWh BESS Cabinet with Liquid Cooling (IP65) Transform your energy infrastructure with the Solis/V-TAC 80kW/156kWh Battery Energy Storage System (BESS) Cabinet, ...

The temperature and humidity controlled cabinet range supplied by Blundell is designed to ensure that a constant temperature is maintained, and the relative humidity is kept between 1% - 5%. Dry storage ...

Our BESS enclosures offer modularity and scalability to accommodate evolving energy storage needs. Their modular design allows for easy expansion or reconfiguration. Additional battery units and ...

The iCON 100kW 215kWh Battery Storage System is a fully integrated, on or off grid battery solution that has liquid cooled battery storage (215kWh), inverter (100kW), temperature control and fire safety ...
