What is an outdoor telecom enclosure?

The outdoor telecom enclosures, which are also referred to as telecommunications cabinets, are fully enclosed cabinets that help protect electrical cabling and other equipment from potentially damaging environments. Such damage can be caused by dust, rain, ice, and external heat. What do you need to know about outdoor telecom enclosures?

Are outdoor cabinets weatherproof?

Discover our range of outdoor cabinets weatherproofed for ultimate protection. Our outdoor data cabinets and outdoor server rack cabinets are perfect for housing IT, telecom, security, and networking equipment, including 5G and Edge computing applications.

What are outdoor cabinets used for?

Outdoor cabinet usage is increasing through the roll out of fibre, 5G and Edge computing environments. Our outdoor cabinets can be used for street and roadside applications as telecoms and data cabinets and are designed to house and protect data, telecoms and IT systems from weather extremes. Manufacturing features and options include:
