Does the Vatican have a green energy policy?

The Vatican's commitment to green energy is further exemplified by its partnership with the utility company Acea, which now supplies the state with electricity exclusively from renewable sources. This shift ensures that all the energy consumed within the Vatican's walls is entirely green, setting a powerful example for the global community.

What is the Vatican's sustainability strategy?

Sustainable Resource Management and Renewable Energy: A Holistic Approach A cornerstone of the Vatican's sustainability strategy is the responsible management of natural resources like water and energy.
