What is a JA Solar 540w jam72s30 Mr solar panel?

The JA Solar 540W JAM72S30 MR solar panel is a 540W monocrystalline module and 144 cells(6\*24) from the JA Solar brand, one of the leading manufacturers in the world photovoltaic industry. JA Solar's solar panels come with a 12-year product guarantee and a 25-year linear power guarantee.

How long does a JA Solar solar panel last?

JA Solar paid as much attention to durability as they did to performance. JAM72-D30-540MB is guaranteed to retain at least 84.95% of output after 30 years. Product warranty for this panel lasts 12 years. JA Solar guarantees the highest power output. PERC technology and potent antireflective coating result in 20.9% module efficiency.

What are the advantages of JA Solar?

This solar cell type employs an additional reflective layer to absorb more sunlight. Another advantage is the half-cut cell technology. JA Solar has solar cells half the size of those installed in conventional panels. The main benefits are decreased power loss, improved longevity and better low-light performance.

What is JA Solar jam72-d30-540mb?

JA Solar JAM72-D30-540MB is a PV module fit for both residential and commercial applications. JA Solar engineers made the Deep Blue series durable and efficient while minimizing the amount of useful space required for their operation. The Passivated Emitter Rear Contact (PERC) technology ensures excellent power output.
